

Texas Board of Occupational Therapy Examiners

Independent Study: Optional Form

- **This form is optional. You may create or use another form, but such must meet the requirements as per the OT Rules for independent study and CE.**
- **Please make copies and/or attach additional pages as needed.**

General Information:

Please see the excerpt below from the OT Rules regarding independent study. Refer to the full Chapter 367, Continuing Education, for further requirements all CE must meet and the full OT Rules and Practice Act for further regulations.

Excerpt from §367.2(10) of the OT Rules:

(10) Independent Study. Licensees may earn up to a maximum of 10 contact hours for the completion of the independent study of published materials. Documentation shall include a study plan outlining the specific goals and objectives of the study and an activity log corresponding to such with the dates and hours spent on each objective-based activity; the titles, publication dates, and media types (ex: journal article, book, video) of the materials; a synopsis of the materials and their implications for occupational therapy; and a final evaluation of the outcomes of the study.
